+91 9030422529
LinkedIn | GitHub

Data and AI developer with over a year of experience turning raw data into actionable insights and building AI-driven solutions. Proficient in Python, SQL and machine learning, with strong expertise in data cleaning, root-cause analysis and end-to-end product delivery.

Experience

Pulsus Healthtech **Jul 2026 - Present**
AI Developer *Hyd, TG*

- Scrape, clean and structure large volumes of market and company data to analyse the causes behind a six-month decline in company performance and came up with soultion using ai perks.
- Identified the root cause in **42 days** and developed a data-backed corrective solution, and automation tools using google antigravity and Claude which is now in implementation.

Bryte **Aug 2025 - Jun 2026**
Data & AI Engineer *Hyd, TG*

- Analysed raw client data to find business issues, then built AI-driven tools and automations for **3 clients**: Aqua10, Vydhya Hospitals and Food Detecto.
- Delivered solutions with ∼**80% accuracy**, tailored to each client's requirements using AI tools and workflow automation.

MLRIT CIE (Centre for Innovation & Entrepreneurship) **Jan 2025 - Dec 2025**
Chief Operating Officer (COO) *Hyd, TG*

- Led sponsorship and promotions, bringing in **40%** of the clients and securing **60%** of the revenue needed for the 2025 academic year.
- Organised a national-level event and Telangana's first VR & AR event.

Skills

Languages: Python, SQL, Java, C, JavaScript, HTML, CSS
Data & Analytics: Pandas, NumPy, Data Scraping, Data Cleaning, EDA, Root-Cause Analysis
AI/ML: scikit-learn, TensorFlow, PyTorch, Generative AI, AI Workflow Automation, Gemini, Claude, Grok, chat-GPT, Llama AI, Runway ML, DeepSeek
Web & Cloud: React.js, Node.js, Bootstrap, Google Cloud, Git, Jupyter, Unity (AR/VR)

Projects

Food Detecto App **Live on App & Play Store**
React.js, Bootstrap, Java, Python, Google Cloud *2026*

- Turned an influencer's need to regrow a shrinking audience into a startup idea, then built and launched the app as a live product.

EDMIT – Educational Management Tool **Live for MLRIT**
ReactJS, Node.js, Supabase *2025*

- Built a role-based platform that digitises fee payment and course registration, cutting manual paperwork for staff and students.

Studport – Placement & Networking Platform **2024**
WordPress, XAMPP

- Created a placement portal with resume upload that connects students with recruiters and improves hiring visibility.

Education

MLR Institute of Technology **Hyderabad, Telangana**
B.Tech in Computer Science (AIML), CGPA: 8.1% *Nov 2022 - Jun 2026*

Bhashyam Junior College **Hyderabad, Telangana**
Board of Intermediate Education, 87.1% *2020 -2022*

Certifications

CISCO – Data Analytics Essentials Nov 2024
IBM – Python for Data Science Aug 2023
Google Cloud – Cloud Computing Foundations & Generative AI Pathways Oct 2023
NPTEL – Data Structures and Algorithms (Java) Jul–Oct 2024
